EREMA North America, Inc.

## EREMA Expansion of U.S. Headquarters Underway

*Ipswich, Massachusetts:* Ground is broken and construction is underway on EREMA's expansion of its Ipswich, Massachusetts, North America customer trial and spare parts center. The project is on schedule to be completed by late August or early September.

The addition will more than double the current 1000 m<sup>2</sup> and accommodate a new INTAREMA<sup>®</sup> 1108 TVEplus<sup>®</sup> with Laserfilter which will join the three existing systems: an INTAREMA<sup>®</sup> 1108 T and INTAREMA<sup>®</sup> 1108 TVEplus<sup>®</sup> – each with EREMA melt filter SW RTF, plus an INTAREMA<sup>®</sup> 605 K.

Mike Horrocks, EREMA North America CEO, says this local expansion demonstrates EREMA Austria's commitment to North American customers and is evidence of the company's worldwide success.

Mike Horrocks said: "EREMA's success is built on advanced design and exquisite engineering, and backed up by accessible, attentive support. The new addition and added system for customer trials allows us to keep up with growth, continuing the high level of service our customers expect."

### EREMA North America

EREMA North America, Inc., is a subsidiary of EREMA Engineering Recycling Maschinen und Anlagen GmbH. Headquartered in Ipswich, Massachusetts, EREMA North America maintains a large stock of spare parts – about 75% of requests are dispatched the same day an order is received – and a crew of skilled service technicians and support personnel. The facility houses up-to-date EREMA equipment for demonstration purposes and trials with customer supplied materials.

For more information, contact Mike Horrocks, CEO, EREMA North America, 23 Old Right Road–Unit 2, Ipswich, MA 01938. (978) 356-3771, (978) 356-9003. Email: mhorrocks@erema.at; www.erema.net

### About the company:

Since it was founded in 1983, EREMA Engineering Recycling Maschinen und Anlagen Ges.m.b.H has specialised in the development and production of plastic recycling systems and technologies for the plastics processing industry and is

## EREMA Expansion of U.S. Headquarters Underway

---

regarded as the global market and innovation leader in these sectors. EREMA's technology has become established as a leading global standard for a wide variety of recycling tasks, ranging from the recycling of polyolefins to polyester (PET).

The wide-ranging product portfolio can be divided into the following main segments:

- Plastics recycling systems for standard applications and production waste
- Plastic recycling systems for heavily printed/contaminated post-consumer waste
- FDA-approved PET recycling systems, VACUREMA<sup>®</sup>, efsa approval requested via customers (e.g. for bottle to bottle recycling)
- Inline PET applications (e.g. for fibre, film and strapping)
- COREMA<sup>®</sup> plastic recycling system for the production of highly filled and customised compounds
- Fully automatic, self-cleaning melt filters
- Pelletising systems

Around 450 people around the world work for the Austrian company group. With its own sales and service companies in the USA and China, plus around 50 local representatives in all five continents, EREMA provides custom recycling solutions for international customers. Innovative technology and global service support additionally ensure that owners enjoy the maximum benefit from their EREMA systems.

Numerous patents, particularly energy-saving, environmentally friendly systems, exacting quality requirements and proactive commitment to customers form the basis for the continuing international success of EREMA.

### EREMA Group in figures:

<b>4,000</b>	EREMA systems in operation around the world
